Requirement Definitions

Tele-Interview

A part 2 interview about health history and nicotine use.

Paramed Exam

This exam is completed by a paramedical company and includes a medical history interview and physical measurements.

Full Blood

A blood sample drawn by a paramedical company from a vein in the arm and tested for a variety of body system functions—kidney, liver, lipids, sugars, as well as HIV. NT proBNP is ordered on most blood profiles over age 50.

Urinalysis

A urine sample taken by a paramedical company and used to test for protein, sugar, nicotine, and drugs of abuse, and may include HIV.

EKG (Electrocardiogram)

Recorded by a paramedical company and is used to study and record the electrical activity of the heart.

Rx Check

A prescription database check.

Senior Supplement

An exam completed by a paramedical company where cognitive questions are asked and mobility tests are performed. Cognitive questions may involve word recall, clock drawings and questions around activities of daily living.

Financial Supplement

Required for \$5 million face amounts and above. This may include tax returns covering the past two years, brokerage statements, bank accounts, or real estate assessments. Financial statements may be required on business cases at lower face amounts or other applications with complex financial arrangements. To complete the financial supplement, please submit Symetra form LUC-32 or any supporting financial documentation by a third party.

Electronic IR (Inspection Report)

An internal automated search completed by one of our vendors, whereby no contact is made to the proposed insured.

Third Party Financials

Signed statements that verify the applicant's current net worth and income over the last three years. Information provided by a certified public accountant (CPA), accountant or estate attorney without supporting documents does not constitute a third-party statement. Supporting documents that may be used (but are not limited to) include balance sheets, brokerage/bank statements and/or tax returns.

Exceptions to Above Underwriting Requirements

In some instances, the face amount used to determine underwriting requirements will be larger than the amount on the application. These instances include:

- 1 In-force life coverage with Symetra that was applied for within the last 12 months:
Take the total of all face amounts.
- 2 Guaranteed Insurability Option (GIO):
Add the applied-for GIO amount to the face amount.
- 3 Death Benefit Option C:
Multiply 1.5 times the face amount.
